INE WITH HER SON DAAN, 1976

Hello,

We are Basil. We like to see you enjoying riding your bicycle, which is why we make beautiful and functional bicycle accessories that encourage you to cycle more often. Simply because cycling is healthy and gives you a daily dose of happiness.

It all started in 1976 when Ine van Dam stepped into the bicycle shop of Nico van Balveren, looking for a wicker basket for her bicycle. Nico rose up to the challenge and developed a custom made basket, meeting all Ine's wishes. The most important discovery: because of that basket she enjoyed her bike rides even more!

Not a whole lot has changed in our family business since then. Our passion still is designing products that make cycling more enjoyable, always taking your wishes into account.

We want to understand why and when you ride your bicycle. And also why en when you don't. From that we learn, every single day. This information, together with our sense of style and technical knowledge, results in stylish, high quality and always functional cycling accessories and cyclist rainwear. Together we can spread cycling joy. Will you join us?

On behalf of the Basil team,

Marthijn van Balveren

A handwritten signature in black ink, appearing to read 'M. van Balveren', with a long, sweeping flourish extending upwards and to the right.

365 DAYS TO CYCLE

Every day is a cycling day with Basil.

You love the feeling of freedom on your bicycle. Cycling is good for you, good for the earth, and feels fantastic. You want to cycle on work days, school days, summer days, winter days, dry days, and wet days.

Basil has you covered. We'll carry your packets of joy, large and small. We'll keep you dry, comfortable, and looking great. You just focus on enjoying the ride, every single day.

Spread the cycling joy, 365 days a year!

The background image is a soft-focus outdoor scene. In the center, a person with long blonde hair is seated at a dark wooden table, facing away from the camera. A small tree with green leaves stands behind them. The foreground is filled with tall, green grass and small yellow wildflowers. The overall color palette is dominated by greens and a warm, slightly desaturated brown for the person's clothing.

Did you know that... that cycling with a backpack hooked-on your luggage carrier is much safer than cycling with a backpack on your shoulders? Why? The weight of your backpack is lower located. Furthermore, it is so much more comfortable, no more dreaded sweaty backs when cycling to or from work. Safe & smart thinking!

Basil Flex

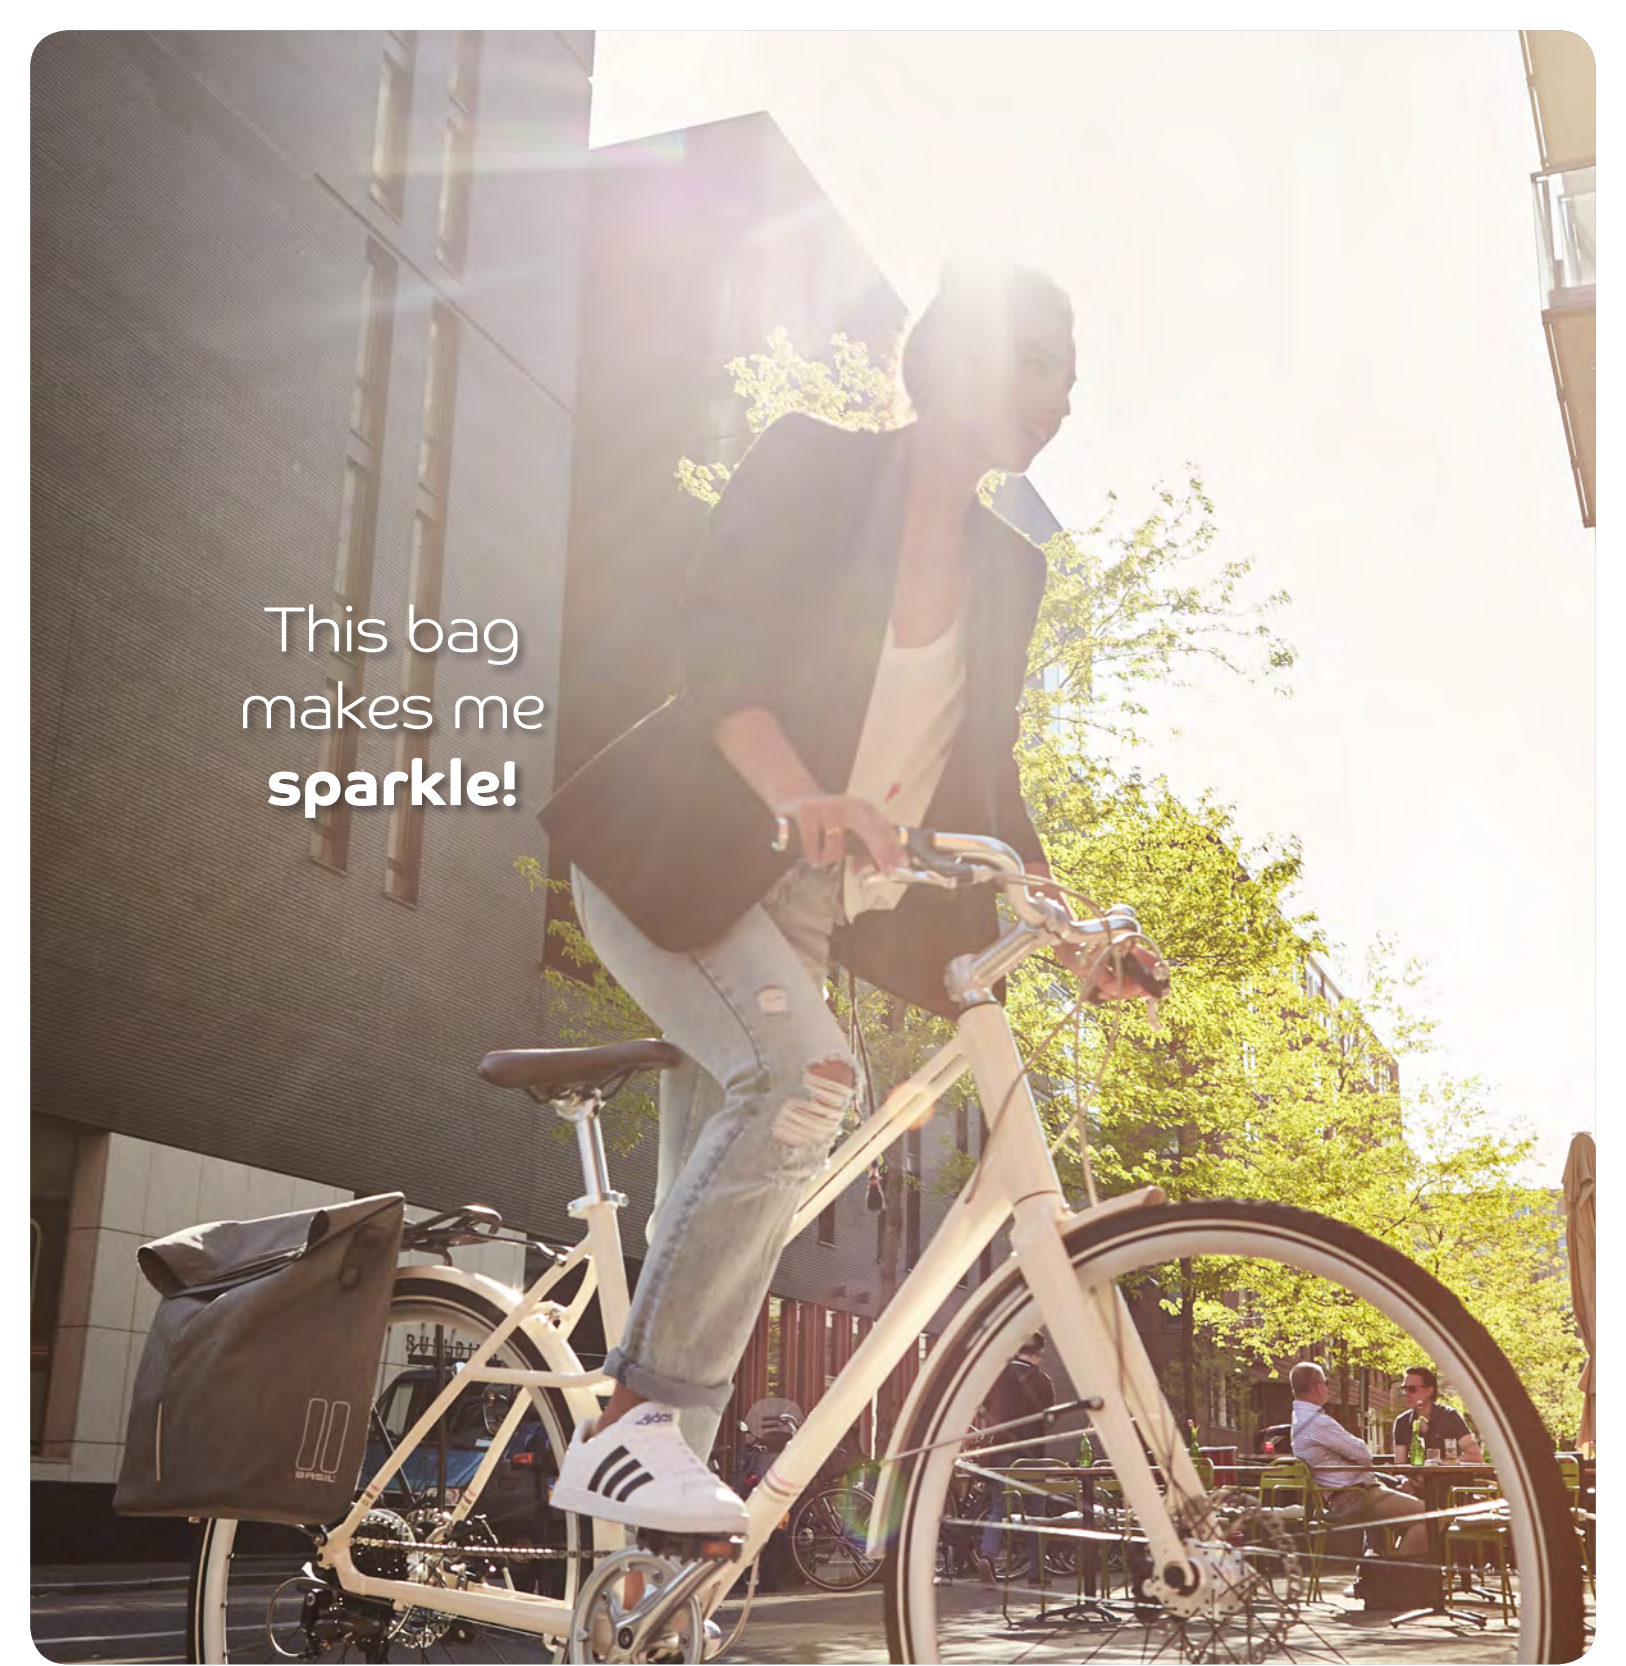

This is ideal when you're on the move or simply going to work. You don't have to carry a swaying bag on your back that could cause you to lose your balance. Therefore, it's safer and you won't need to worry about getting a sweaty back. Once you've arrived at your cycling destination, it's easy to put your backpack on again.

It started with one wicker basket, back in 1976. Ine van Dam was delighted with the new design, and many more happy customers followed. Made by hand, only from the best European wicker, today we offer a full series of wicker baskets. Perfect for groceries, and yes, even a pet. We simply love them. Our all time classics.

A vintage-style bicycle with a black frame and white wheels is parked on a gravel path. The front basket is filled with a bouquet of white, pink, and purple flowers. The rear basket contains a light-colored, knitted blanket. The bicycle is positioned next to a river with lush green trees and foliage in the background. The scene is bathed in bright, natural light, suggesting a sunny day in spring.

A woman with long, dark, wavy hair is riding a bicycle away from the camera on a city street. She is wearing a light-colored, long-sleeved top and blue jeans. A black wire basket is attached to the back of the bicycle, filled with orange and brown grocery bags. A red rectangular light is mounted on the back of the bicycle. The background is a blurred city street with buildings and trees.

Cyclist rainwear

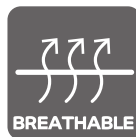

I hope it's going to rain today!

Do you skip cycling because your rainwear makes you look and feel like a damp noodle inside a wet plastic bag? Are you embarrassed about arriving at your destination dripping wet, inside and out?

We admire the folks who cycle in the rain, but we envy the ones who look good doing it. What's their secret? Super powers aside, good rainwear is key.

With Basil rainwear, you can worry less about the weather forecast and more about where you're going. Good-bye, plastic bag feeling.

Hello, 365 days a year rainwear.

Our Skane rainwear stays in place and is cut to give you a room to move right where you need to. In fact, there's extra fabric over the hands and shoes to keep them dry, too. Ditto on the hood, which won't block your view and has the option of extra space if you're wearing a helmet.

Basil **DBS** (detachable bag system)

In all it's simplicity, our new DBS – detachable bag system – is an effective way of carrying your double bag. Why? Because this system makes your bag **detachable**. How?

- 1 By using straps you can easily mount the adapter plate with rotary locks onto your luggage carrier
- 2 The same goes for the second plate, thanks to the four straps you can combine the plate with your double bag
- 3 And then, simply attach the bag onto your luggage carrier by rotating the two locks. Off you go!

Basil zipper pocket solution

How do you turn a bicycle bag into a fashion accessory? The answer is the zipper pocket, first introduced by Basil. The Hook-On System can be hidden away in the zipper pocket, transforming the bicycle bag into a 'normal' shoulder bag in the blink of an eye.

Basil Waterproof

Explanation of waterproof:

- Meets IPX3, with due observance of the applicable IP Code (IEC 60529).
- IPX 3 applies to the main compartment of the bags.
- Sharp objects may have a negative effect on the water resistance of the materials used.
- Condensation may be the cause of items inside the waterproof inner bag feeling damp. For this reason electronic equipment must always be packed in a separate waterproof cover.
- The level of water resistance was determined on the basis of normal use with a maximum load of 10kg per main compartment. A maximum of 2.5 kg applies to the handlebar bags.
- The water resistance cannot be guaranteed if the flap and any roll top closures of the bag are not overlapped and closed properly.
- Bags must be dried carefully after every exposure to rainwater.
- In general terms, the effects of the weather will gradually reduce the water resistance of fabrics. We recommend periodically treating the bags with an appropriate, water-repelling spray.

Basil Nordlicht Technology

Nordlicht Technology can be used as additional lightning and should under no circumstances replace the legally required bicycle light. Whenever any light is used on a bicycle, it must at all times comply with local regulations.

The publicity photos contained in this brochure have been specially staged for this new Basil collection. In daily traffic, you must comply with traffic regulations at all times. Furthermore, please note that you should always follow the manufacturer's instructions regarding the correct use of any product. Basil cannot accept any liability for damage incurred directly or indirectly from the improper use of any product, and/or if the manufacturer's instructions are not properly followed.

This catalogue is intended for promotion and clarification of the Basil range. All listed prices are recommended retail prices and include 21% VAT, and are subject to changes and/or typesetting and/or printing errors. Specifications could be subject to change for improvement without notice.
